Math Practice Test L

1 Mia has m marbles. Leo has 4 fewer than twice as many as Mia. Write an expression for Leo's marbles.

Working

Answer

2 A bag has 3 1/4 kg of rice. 1 2/3 kg is used. How much rice is left?

Working

Answer

3 What is 35% of 80?

Working

Answer

4 A rope is 3 1/3 m long. Ella uses 3/5 of it. How long is the piece she uses?

Working

Answer

5 How many 1/4-cup scoops are there in 5 cups of flour?

Working

Answer

6 A point is at (7, 2). How far is it from the x-axis?

Working

Answer

7 Without working it out: is 1 1/2 × 64 greater than or less than 64?

Working

Answer

8 A parallelogram has a base of 9 m and a height of 4 m. What is its area?

Working

Answer

9 Work out $52.7 \div 10^3$

Working

Answer

10 The 3 in 0.03 is what fraction of the 3 in 0.3?

Working

Answer

Answer Key: Math Practice Test L

Answers involving money or ages should include units ($, ¢, years). Working shows one way to solve each.

Q	Answer	Working	Skill checked
1	**2m – 4**	Twice as many is 2m; 4 fewer takes 4 away: 2m – 4	Use a variable for an unknown number in an expression (6.EE.B.6)
2	**1 7/12 kg**	Twelfths: 3 3/12 – 1 8/12; borrow one whole: 2 15/12 – 1 8/12 = 1 7/12 kg	Fraction subtraction word problem (5.NF.A.2)
3	**28**	10% of 80 is 8, so 30% is 24; 5% is 4; 24 + 4 = 28	Find a percent of a quantity (6.RP.A.3.c)
4	**2 m**	3/5 × 10/3 = 30/15 = 2 m	Fraction times a mixed number in a real-world problem (5.NF.B.6)
5	**20**	Each cup holds 4 quarter-cups: 5 × 4 = 20	Divide with unit fractions (5.NF.B.7)
6	**2**	The second number is the distance up from the x-axis	Interpret the y-coordinate as vertical distance (5.G.A.1)
7	**greater than**	1 1/2 is more than 1, so it makes 64 bigger	Multiplication as scaling (5.NF.B.5)
8	**36 m²**	Base × height = 36 square meters - no halving: it is two triangles, not one	Area of a quadrilateral (6.G.A.1)
9	**0.0527**	$10^3 = 1000$, so the decimal point moves three places left	Divide a decimal by a power of 10 (5.NBT.A.2)
10	**1/10**	0.03 is one tenth of 0.3: each place is 1/10 of the place to its left	A digit is worth 1/10 of the place to its left (5.NBT.A.1)
