Math Practice Test N

1 A storage box is 12 in long, 5 in wide and 8 in tall. What is its volume?

Working

Answer

2 A printer prints 45 pages in 3 minutes. At the same rate, how many pages does it print in 8 minutes?

Working

Answer

3 Work out 6.48 + 2.97

Working

Answer

4 Jo walked 1 2/3 miles in the morning and 2 3/4 miles in the afternoon. How far did she walk in all?

Working

Answer

5 Work out 5/6 + (–3 1/3) + 1/6

Working

Answer

6 Work out 6 × (15 – 7) + 4

Working

Answer

7 A trail is 5 1/4 km long. Ben has walked 2/3 of it. How far has he walked?

Working

Answer

8 A class has 12 girls and 15 boys. Write the ratio of boys to girls.

Working

Answer

9 A box is 4 cm long, 3 cm wide and 2 1/2 cm tall. What is its volume?

Working

Answer

10 In the expression 5x + 9, what is the coefficient of x?

Working

Answer

Answer Key: Math Practice Test N

Answers involving money or ages should include units ($, ¢, years). Working shows one way to solve each.

Q	Answer	Working	Skill checked
1	**480 in³**	12 × 5 = 60, × 8 = 480 cubic inches	Find volume by multiplying edge lengths (5.MD.C.5)
2	**120 pages**	45 ÷ 3 = 15 pages a minute; 15 × 8 = 120 pages	Ratio reasoning in a real-world problem (6.RP.A.3)
3	**9.45**	8 + 7 = 15, carry 1; 4 + 9 + 1 = 14, carry 1; 6 + 2 + 1 = 9	Add decimals to hundredths (5.NBT.B.7)
4	**4 5/12 miles**	Twelfths: 1 8/12 + 2 9/12 = 3 17/12 = 4 5/12 miles	Fraction addition word problem (5.NF.A.2)
5	**–2 1/3**	Put the positives together: 5/6 + 1/6 = 1. Then 1 + (–3 1/3) = –2 1/3	Add rational numbers using properties of operations (7.NS.A.1.d)
6	**52**	Parentheses first: 15 – 7 = 8. Then 6 × 8 = 48, + 4 = 52	Evaluate expressions with parentheses (5.OA.A.1)
7	**3 1/2 km**	2/3 × 21/4 = 42/12 = 3 1/2 km	Fraction times a mixed number in a real-world problem (5.NF.B.6)
8	**15:12**	Boys first: 15 to 12, which is the same as 5 to 4	Write a ratio using ratio language (6.RP.A.1)
9	**30 cm³**	4 × 3 = 12 for the base; 12 × 2 1/2 = 24 + 6 = 30 cubic centimeters	Volume of a box with a fractional edge (V = lwh) (6.G.A.2)
10	**5**	The coefficient is the number multiplying the letter: 5	Identify the coefficient in an expression (6.EE.A.2.b)
