Math Practice Test P

1 3 tickets cost $12, 5 tickets cost $20 and 8 tickets cost $30. Is the cost proportional to the number of tickets? Write yes or no.

Working

Answer

2 Work out 739 × 486

Working

Answer

3 Without working it out: is 45 × 1 1/3 greater than or less than 45?

Working

Answer

4 Work out $8.4 \div 10^3$

Working

Answer

5 24 students walk to school. That is 40% of the class. How many students are in the class?

Working

Answer

6 In 4.44, the 4 in the ones place is worth how many times the 4 in the tenths place?

Working

Answer

7 How many 3/8-cup servings are in 2 1/4 cups of yogurt?

Working

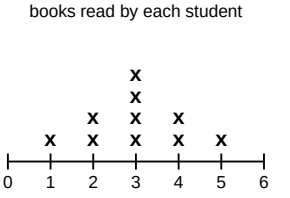
Answer

8 Write an expression for: 3 times the difference of 12 and y.

Working

Answer

9 What is the range of the data?



Working

Answer

10 Round 8.2961 to the nearest hundredth.

Working

Answer

Answer Key: Math Practice Test P

Answers involving money or ages should include units ($, ¢, years). Working shows one way to solve each.

Q	Answer	Working	Skill checked
1	**no**	Cost of one ticket: $4, $4, then $3.75 - not the same, so no	Recognize a proportional relationship (7.RP.A.2)
2	**359154**	739 × 400, 739 × 80, 739 × 6, then add column by column with carries	Multiply 3-digit by 3-digit whole numbers (5.NBT.B.5)
3	**greater than**	1 1/3 is more than 1, so it makes 45 bigger	Multiplication as scaling (5.NF.B.5)
4	**0.0084**	$10^3 = 1000$: move the point three places left, filling with zeros	Divide a decimal by a power of 10 (5.NBT.A.2)
5	**60**	10% is 24 ÷ 4 = 6, so 100% is 60	Find the whole given a part and the percent (6.RP.A.3.c)
6	**10**	Each place is 10 times the place to its right	A digit is worth 10 times the place to its right (5.NBT.A.1)
7	**6**	2 1/4 = 18/8, and 18/8 ÷ 3/8 = 18 ÷ 3 = 6	Divide a fraction by a fraction in a word problem (6.NS.A.1)
8	**3(12 – y)**	The difference of 12 and y is 12 – y; keep it in parentheses, then × 3	Write an expression from a phrase with a letter (6.EE.A.2.a)
9	**4**	Most books 5, fewest 1: 5 – 1 = 4	Describe the spread of a data set (6.SP.A.2)
10	**8.30**	Look at the thousandths: 6, so round up. 8.29 -> 8.30	Round a decimal to the nearest hundredth (5.NBT.A.4)
